

PRESS RELEASE  
**BGM3000**

**APart**

Antwerp, December 14th, 2007

-For immediate release-

### APart launches BGM3000: a professional FM tuner with CD / USB mp3

The BGM3000 is a slimline FM tuner with CD/USB mp3-player. For the first time all these features are built into one professional, affordable player.

This 19" model takes up just one unit of rack space, and has two detachable brackets. Thanks to its two detachable brackets, this 19" model takes up few rack space. The FM tuner has 10 presets and skips automatically to the next station with sufficient signal strength.

The BGM3000 has a heavy-duty mechanical and electronic anti-shock CD-mechanism which can buffer sound up to 40 seconds for audio CD's.

It can play recorded music from the CD-player (audio / MP3) or directly from a USB-key plugged into the slots on the front or the back of the unit.

The combi output function switches automatically to FM playback once the music on the CD/USB has finished. This means the music is never interrupted. This is yet another feature that makes the BGM3000 excel over other background music players.

The BGM3000 is on stock now and will be on display during the ISE – Integrated Systems Europe - trade fair: from 29-31 January 2008 in RAI Amsterdam (booth L120).

*APart is a Belgian professional audio brand that develops, produces and markets quality speakers and electronics for use in various applications: from supermarkets to public transport, from bars and restaurants to boardrooms. APart is a division of the Antwerp based Audioprof group, a privately owned company with a strong and independent financial position and dedicated management.*
